AMENDMENTS TO THE CLAIMS

The claims as listed below will replace all prior listings and presentations of claims in the above-identified application.

1. (CURRENTLY AMENDED) A children's game, comprising:
a plurality of tiles, each tile comprising a thin flat sheet of material having a first design printed on a first face and a second design printed on a second face, wherein the designs on the first face of each tile are substantially identical to one another, and wherein the designs on the second face of each tile are substantially identical to one another;
the first design on the first face of each tile comprising a first arc intersecting opposite corners of the first face, the first arc defining a boundary between a first region comprising a first color and a second region comprising a second color;
the second design on the second face comprises a second arc intersecting opposite corners of the second face, wherein the design on the second face comprises a color scheme that is a reverse of a color scheme of the design on the first face.
2. (ORIGINAL) The children's game of Claim 1, wherein each tile is made of cardboard.
3. (ORIGINAL) The children's game of Claim 1, wherein each tile is substantially square in plan aspect.
4. (CURRENTLY AMENDED) The children's game of Claim 1, wherein the first color is black-3, ~~wherein the design on the first face comprises a first arc intersecting opposite corners of the first face.~~
5. (CURRENTLY AMENDED) The children's game of Claim 1, wherein the second color is white-4, ~~wherein an interior region of the first arc comprises a first color.~~
6. (CURRENTLY AMENDED) The children's game of Claim 1, wherein corners of the tile are rounded to prevent injury-5, ~~wherein an exterior region of the first arc comprises a second color.~~
7. – 12 (CANCELED)
13. (CURRENTLY AMENDED) A tile for stimulation and entertainment of children, comprising:

Appl. No : 10/611,321
Filed : July 1, 2003

a thin flat sheet, substantially square in plan aspect, and having exactly two faces with a first printed design on a first face and a second printed design on a second face;

wherein the first design comprises a first arc intersecting opposite corners of the first face and defining a boundary between a first region and a second region, and the second design comprises a second arc intersecting opposite corners of the second face and defines a boundary between a first region and a second region wherein the corners intersected by the first arc on the first face are the same corners as those intersected by the second arc on the second face;

wherein the first region comprises a first color and the second region comprises a second color, and the colors on the first face are the inverse of the colors on the second face.

14. – 16. (CANCELED)

17. (NEW) The children's game of Claim 13, wherein each tile is made of cardboard.

18. (NEW) The children's game of Claim 13, wherein each tile is substantially square in plan aspect.

19. (NEW) The children's game of Claim 13, wherein the first color is black.

20. (NEW) The children's game of Claim 13, wherein the second color is white.

21. (NEW) The children's game of Claim 13, wherein corners of the tile are rounded to prevent injury.
